## COUNTY POLITICS.

Several Republicans, as well as Democrats, have signified their willingness to enter the campaign and fill most any office in the Court-house. Two Republicans have been mentioned for the office of Sheriff, five for County Clerk, three for Recorder, two for Treasurer, and good men for the office of Commissioner as thick as bees in a hive. Candidates, as well as voters, are anxious to know when the County Central Committee will meet. Is it not about time for the chairman to call a meeting and get matters in shape for the coming fight? Nearly all the other County Central Committees in the State have met, talked over the situation, and named a day for holding the primaries. If the so-called party leaders would recognize the right of voters to have a say in arranging a campaign programme, a better feeling would prevail and every good Republican would be willing to pull off his coat and work for the ticket with a will. Intelligent voters object to having a handful of men get together and make up a slate in their own interest and then attempt to force the voters to adore the ticket. Let a primary be called in time for voters to act intelligently when they select delegates to the County Convention. In that way men will be selected who have the best interests of the county and party at heart, and none but the best men will find a place on the ticket.

## EDITORIAL NOTES.

A thousand dollar clerk writes to the Washington Post declaring that the political assessment circular is an attempt to levy indirect taxation, and that the means employed to collect it is an implied threat of dismissal in the event of refusal. Citing a case tried before Chief Justice Sir James Mansfield, in which suit was brought by a sergeant of militia against his superior officer for compelling him to attend school and pay eightpence per week for the privilege, where it was held by that eminent jurist that the subject cannot be taxed, even in the most indirect way, unless it originates in the lower House of Parliament. The correspondent wants to know whether the assessments levied on department clerks are not indirect taxes, and whether non-compliance will cost us our places or not.

Recent census reports show California to be the largest sheep growing State in the Union, it having 4,182,440 head, over one-tenth the aggregate number in the United States. Oregon has 1,032,162 head, and New Mexico 2,088,381. The proportion of sheep to population in California is about five sheep to each individual; in Oregon about seven sheep to each individual; and in New Mexico about 15 sheep to each individual. Of the large States Michigan ranks first and Ohio second in sheep raising, but Rhode Island has the largest number of sheep in proportion to population. The whole number of sheep reported in the United States is 42,381,389. This number, large as it is, could be doubled, with advantage to the producers and consumers.

There is more California wine sold under French labels in the local market than in its true character. This is at once unfair to producers and consumers, and, moreover, it is dishonest.

It is said that the Democratic friends of Hon. F. Lemmons, Peavine, are trying to induce him to announce himself for County Commissioner.

The death of General Skobloff is as serious a blow to the Russian army as the loss of a division in the field. Such leaders of men are few.

The export trade to Honolulu, Australia and Mexico is steadily increasing.

Director Burchard has left Washington to make an inspection of the mines at Carson, Denver and San Francisco.

Phillip Haison was hanged at Clinton, N. C., for the murder of Henry Sellers. He never flinched.

## TO-DAY'S NEWS

Press Dispatches to Evening Gazette.

## EASTERN.

Ready for the Wire.

WASHINGTON, July 10.

The announcement that Guitane's bones are bleaching in the sun on the roof of the Medical Museum drew a large number of the curious to-day. The bones were removed from the boiling vat on Saturday and washed. They will be exposed to the sun daily two weeks to bleach, after which they will be wired together and the skeleton ready for inspection. The bones are constantly guarded on the roof by a colored man to prevent their being stolen.

## Strikers Quiet

CHICAGO, July 11.

Everything quiet at the mills of the Cabinet, Iron and Steel companies, this morning, although large crowds were gathered around the depot awaiting the arrival of trains. Preparations are being made to start up three of the 18 furnaces with non-Union men. There is a large force of police on hand, about 50 specials having been sworn in. The Union men claim they will not make any trouble.

## FOREIGN.

Ready for Action.

ALEXANDRIA, July 10-5 P. M.

No message of surrender has come off shore and the signal has been hoisted for the fleet to clear for action. Inside the harbor, beginning from Fort Pharos, lie the Temeraire, Alexandrande, Superb and Inflexible. On board the latter all is ready for action. The numerous wind sails for ventilation during action form a strange look as they lower from the sombre turrets. We shall see a hot fight. A large contingent will disembark from the flagship if required to complete the dismantlement of the forts. Mr. Tulluch, the military attaché, will accompany the shore brigade. He has, on frequent reconnaissance, obtained complete information up to the forts. Each galling and Niederfeld gun will cover their movements. Besides the ironclads are bitters, decoy, cygnet and condor gunboats, all outside of range of the fire of the batteries. Besides these again is a great fleet of steamers lying to await the Austrian and German war steamers, which appear to be getting ready to move outside. At 11 o'clock the Invincible, Monarch and Penelope moved out and anchored outside the harbor. The scene was impressive in a high degree. Slowly all the foreign ships moved from their berths and steamed out of the harbor. The merchant steamers presented no regular order, but the war ships of the various nations steamed out in squadrons saluting as they passed the Admiral's flag. Bands played national airs. Scarce a breath of wind was blowing and the various ensigns drooped against the masts. The bright eastern sky overhead, the deep blue sea, the white clothed crews clustering in the rigging and the knowledge of the change which would soon take place rendered the stately procession of war ships extremely impressive. The merchant steamers were all crowded with refugees, those who had held on to the last in the hopes that matters would not come to an extremity.

Appearances on shore indicate a determination to fight. Bodies of troops can be seen moving about. While the Director of Customs was coming on board the Tanjore he was stopped by a guard of soldiers, who took him and the cash chest, which was being carried with him, before Arabi Pasha. Arabi Pasha was determined that the money should be handed to him, but the Director of Customs refused, whereupon Arabi took possession, saying "that it was time the director was sent on board under escort." In several instances they had great difficulty in getting away. Two English engineers on the tug Champion were seized by an Arabi crew and were being carried off when the gunboat Batter started in pursuit and rescued them. The last two Englishmen on board were the Cornish managers of the waterworks and the secretary of the port. The Khedive has sent his family away to the country Palace, but he remains at Alexandria himself. While this conversation was going the Admiral's letter which had followed them from the Khedive's yacht Mahroussa, was brought on board and handed to them. They then returned on shore to consider the matter in a council of ministers, and will reply before 5 o'clock this evening. At 1 o'clock a steam launch towing a large boat full of Egyptian officials was seen approaching the flagship. It contained Raghef Pasha and the other members of the past and present ministry. They were received by the Admiral and the Hon. Mr. Lamdan, flag lieutenant and a guard of marines. The hand playing and a general salute being fired, as they came as a deputation from the rulers of Egypt. At once it appeared that they had not received the Admiral's letter and had come off to enquire the reason for the hostile preparations. The interview was conducted with great courtesy on both sides, but the Egyptian officials looked blank indeed, upon the Admiral informing them that he had sent a demand that the forts commanding

the harbor be immediately dismantled. The members of the deputation talked somewhat excitedly among themselves in Turkish—discussing apparently what Arabi would say to the demand. They inquired who would be deputed to dismantle the forts.

The Bombardment of Alexandria.

LONDON, July 11.

The Standard's correspondent on the Invincible telegraphs the following: Alexandria, July 11, 10 A. M.—The attack on the forts has now been kept up two hours. Smoke hangs over the town along the line of the shore batteries and among the ships, making it difficult to see what damage has been done. It is certain, however, that the enemy has suffered very heavily. Fort Marsa El Knat has been blown up by fire from other batteries. The forts are slackening their fire. The top of the tower of Fort Pharos has been carried away and many guns have been dismantled on that and other forts. The flag of the Geneva Red Cross is flying over the hospital in the city and the Greek and Dutch flags are hoisted over their respective Consulates. At the beginning of the bombardment immense excitement was visible. Crowds of people were seen winding their way toward the Palace. The streets are now deserted, the people having fled or taken refuge in cellars. There are no signs of surrender so far. A telegram from the Eastern Telegraph Company's steamer at Chiltern sent at 11:15 this morning says: "The bombardment still continues. The forts are gradually being silenced. Ten forts are suffering severely from the heavy and disastrous fire of the ships Alexandria, Superb and Temeraire."

THE SUEZ CANAL CLOSED.

LONDON, July 11.

A dispatch to Lloyds from Port Said states that the British Consul there, by orders of Admiral Seymour, has stopped ships from entering the Suez canal. Admiral Seymour telegraphs as follows: Ships opened fire at 7 o'clock this morning. The return fire from the forts was weak and ineffective. An explosion in Port Marsa El Knat had occurred by 8 o'clock. The ships engaged are the Inflexible, Temeraire, Penelope, Superb, Sultan, Invincible, Alexandria and Monarch.

PARIS, July 11.

The agent of the Suez Canal telegraphs to De Lesseps that he had written to Naval Commander protesting against the action of the British Consul at Port Said in preventing vessels from entering the canal as a violation of its neutrality, declaring that the company will hold the British Government responsible. The whole staff of canal officers remain at their post.

PORT ADA BLOWN UP.

LONDON, 1 P. M., July 11.

A dispatch received from Alexandria says the magazine at Fort Ada has been blown up.

EMBARKATION OF FRENCH SUBJECTS ORDERED.

LONDON, July 11.

A private telegram from Port Said states that the French Consul there has ordered the embarkation of French subjects. The occupation of Port Said is expected to take place to-day.

ALEXANDRIA, July 11. The Fort Ada magazine, which was blown up, was located close to the Vice-Royal Palace, outside the harbor.

CONSTANTINOPLE, July 11. Lord Dufferin, the British ambassador, notified the Porte Monday of Admiral Seymour's intention to bombard the Alexandria forts if Arabi Pasha remained obstinate. The Porte the same evening telegraphed Musurus Pasha, the ambassador at London, that such an act would constitute a grave infraction of sovereign rights of the Sultan and it is expected the British government order Admiral Seymour to obtain.

ALEXANDRIA, July 11. The fire fleet commands the railway to Cairo. Up to noon four forts in all were blown up. No casualties to fleet discernable.

ALEXANDRIA, 6:50 P. M., July 11. Action is finished for to-day. Casualties on English side: Forty wounded, none killed.

ALEXANDRIA, July 11. In the fleet the Invincible had four men wounded. The Inflexible was hit five times.

## WESTERN TELEGRAMS.

Hurricane on the Friendly Islands. SAN FRANCISCO, July 10.

A terrible hurricane visited the Friendly Islands April 25th at Van Van. The bark Don Guillermo, Captain Johnson, went down on her anchors, and the Captain, officers and six seamen were lost with her. Five boys were saved. The hurricane was accompanied by a tidal wave fifteen feet high, which swept over the island and did terrible damage. The storehouse of McArthur & Co., at Auckland, which contained over 300 tons of copra, was destroyed. All the houses of the natives and many European dwellings were carried away. Coconut trees were snapped off like pipe-stems, and the island presents a scene of widespread desolation.

A Dash for Liberty.

PORTLAND, Or., July 10.

Lee and Graham, two convicts confined in the penitentiary at Salem, made a break for liberty this afternoon. They were seen by a guard, who shot at Graham killing him instantly. Lee was captured.

## Scarcity of Laborers.

Industrious workmen are in demand now and good workmen can at any time find employment. Yesterday there were half-a-dozen agents from various ranches hunting around town for men to work during the present harvest. The great complaint around Reno at present is the scarcity of hands to work on the surrounding farms. If a few hundred of the superfluous population of the Comstock were to emigrate to Reno it would be of mutual benefit.

## Lions Released.

Ah Jack, who has the reputation of being the whitest Chinaman in the State, has released his lions from the N. & O. R. R. He reports everything quiet along the labor line of the Chinese Potomac.

## MEMORIAM.

At a regular meeting of the Virginia Miners' Union, held last Friday evening, the following resolutions were unanimously adopted:

Resolved, That the thanks of the Virginia Miners' Union be tendered Messrs. Ed Boyle, W. H. Patton, John Hoskin, R. M. Ballard, A. Van Dusen and all the miners who took part in the rescue of the seven men confined on the 2150 level of the Alta mine on the 2d day of June, 1882, for their noble and generous exertions in rescuing them from their perilous position.

It was further Resolved, That in memory of Dennis Callahan and W. H. Bennett, who nobly lost their lives in endeavoring to take relief to the imprisoned men, the hall of the Virginia Miners' Union be draped in mourning for 30 days, and the heartfelt sympathy of the Union is hereby tendered to the relatives of the deceased.

## The Excursionists.

After ten days of a very pleasant trip, the excursionists returned to their homes via Reno this morning. Twelve cars including two sleepers drew them to Reno, and over 100 changed cars here for Virginia City, 75 or 100 continuing their way to their homes eastward from Reno. The whole of the party express extreme pleasure at the way they were treated and state that the trip was a very pleasant one, the accommodations being first-class in both Santa Cruz and Monterey. The extra number of cars caused the train to be delayed on the road, arriving at Reno about a half an hour late, but outside of this small delay not a mishap occurred.

## Bad Shooting.

The Enterprise says: "In almost every town there are gun cranks, who have an idea that they are predestined to become wonderful marksmen, but who are no more fit to be entrusted with guns than so many 8-year old boys. At Truckee last week one of these blazed away at a mark (none of them ever hits what he shoots at), and sent a bullet into a house in which were seated eleven persons. The ball passed under the arm of a lady, and cutting through her clothing, buried itself in the wall behind her." None of the Reno Guard rifle team have been out of town. Has Truckee organized a military rifle squad?

## A Good Firm.

W. H. Dickens & Co., the successors in business of W. H. Dickens, announce that they deal in the choicest line of family groceries, canned goods, fresh fruits, direct from California, together with Reno fruits, vegetables, produce and poultry. A new line of tinware, hardware, crockery and glassware is also carried, together with anything desired by any thrifty housekeeper. Inquire at headquarters, on sierra street, near the GAZETTE office. Read the new firm advertisement.

## Mine Sold.

That veteran and untiring prospector, George Lovelock, of Lovelock, says the Silver State, has sold an interest in one of his nickel mines to Bell & Curtis, of San Francisco, for \$8,000, cash down. Mr. Lovelock has been prospecting a long time, and in early days made several sales of mining ground, but this is the only sale of any consequence he has made for years. Such perseverance as he has displayed deserves a rich reward.

## Willing to Assist.

General Kittrell, the Democratic war horse of Nevada is in Carson hunting a Republican candidate for Governor. He said in the presence of a Tribune reporter and several politicians that the strongest man the Republicans could nominate, and the hardest to throw down by the untried, was H. S. Mason, Carson's merchant. The General would be one of the first to assist in the wrestle.

## Uncle Tom's Cabin.

On Saturday evening next Jay Rial's Uncle Tom's Cabin Company will appear at the Nevada Theater. This company has just closed a very successful engagement at the Baldwin Theater, San Francisco, and are now on their way East. The Siberian blood hounds will be a feature. Box office now open at the Postoffice. Engage seats early. Read the Company's ad. in another column.

## A First-Class Tradesman.

Wm. Goeggel, the well-known jeweler of Reno, is noted throughout the whole State for the thorough excellence of his goods, his splendid mechanical workmanship, and moderate prices to every customer. Mr. Goeggel's name is a synonym throughout the State for excellency of goods and workmanship and square dealing. Read his ad. under "New To-day."

## The Reno Druggist.

R. E. Queen calls attention to his choice stock of goods, medicines, toilet goods, perfumes, wines, brandies, etc., in an advertisement in another column. Mr. Queen has succeeded in building up a splendid business and is deserving of liberal support. No finer stock on the coast than can be found at his store. His fountain flows the nicest of ice-cold soda and is visited by hundreds daily.

## JOTTINGS.

Red-hot—94 in the shade.

Good Templars meet to-night.

Water melons at Leadbetter's.

Jimmy Budden has the scarlet fever.

If you are thirsty go to Chase & Thyes.

The hay crop this year will be unusually large.

J. S. Pelton wants to rent a furnished house. See 50-cent column.

J. L. McFarlin's little girl, so long sick with scarlet fever, is rapidly improving.

Numbers of Carsonites are complaining of lung affections and Summer complaints.

Ladies' gold ear-rings at Nasby's bazaar. Thermometer at 7, 9, 11, 1 and 3—75, 80, 86, 88.

For a genuine cooler these hot days take some of that ice cold sparkling soda at Osburn & Shoemaker's.

The excursion party returned from San Francisco this morning. They report having enjoyed themselves.

A new lot of those superb White sewing machines just arrived and for sale cheaper than any other machine in the market, at Osburn & Shoemaker's.

Albert Ross came in from his Long valley ranch yesterday, driving 30 head of beef cattle for Charley Zeigler, the Reno butcher. Mr. Ross says the excessive heat made it very difficult to get along with fat cattle.

Manning & Berry received this morning 10,000 grain sacks in anticipation of the heavy grain crop of this year. This enterprising firm is always on the look-out, and keep even pace with the development of the State and county.

## Happy Families.

From time immemorial figs have been used as a delicious laxative food, and now in the form of a concentrated Syrup of Figs they are destined to play an important part in the problem of human health and happiness by presenting to the thousands who suffer from the ills arising from habitual constipation, a remedy as pleasant to the taste as it is effective. Trial size free, and large bottles for sale by R. E. Queen.

## Business Looking Up.

During the pay-days just passed, says the Free Press, 920 men drew wages from the mines, mills and railroad companies in Bodie. Of this number 250 men drew their money from the railroad, the balance from the mines and mills. These figures are correct. If this indicates that Bodie District is "dead in the shell," we would like to see some real live camp.

## Saturday's Picnic.

J. T. Aitken has nearly completed his arrangements for the Good Templars' picnic at Carson next Saturday. Several car loads will go from Reno, one car from Truckee, and Virginia will be well represented. Don't fail to take it in.

## Discharged.

John S. Miller, who was committed from Ormsby county last September, was discharged from the Asylum this morning.

**UNCLE BEN JO'S**

**GREAT SOUTH AMERICAN PA ACEA.**

UNCLE BEN JO was born in Boston in 1800. Being a botanist, he effected many wonderful cures with roots and herbs. In 1844 he went to South America to study botany, and while there accidentally made his great discovery. The natives of this country were quite familiar with it, and had always supposed it to be a poisonous herb, which they used for the sole purpose of keeping snakes away from their tents or houses. This they did by laying it in a circle about the same at a proper distance off. This herb, Uncle J. O., as well as the natives, considered a very obnoxious and poisonous one, and when green and fresh it threw off a very distasteful and repulsive odor. The herb grows about two feet high, and about eight inches of the top part of its stalk is leafless, and this part loops over and hangs downward perpendicularly, and from its curved neck to its end it increases in size, and on the end of the same is a large, burly-looking ball, which stalk and ball, in this hanging position, looks precisely like the tongue of a bell. Hence Uncle JO named it the Bell Tongue Plant. In South America this herb is only found in the extreme interior of the country, and the natives there call it "Zarr Nero." It is a wonderful cure of kidney and liver diseases, rheumatism, neuralgia and rheumatism. We have a whole library full of testimonials. Sold by **OSBURN & SHOEMAKER,** Reno, Nev.
